

COMPANY SUMMARY

- We deliver software solutions that offer secure and sophisticated features, while providing flexibility and reliability.
- We work with our clients to build highly robust, scalable and fortified business applications that bring great value to their businesses.
- We also offer a host of comprehensive post-installation maintenance packages.

DIFFERENTIATORS

- Automated CI/CD on Azure DevOps: version-controlled, repeatable pipelines enabling same-day, low-risk deployments.
- Dual-layer test assurance: unit plus mutation testing on every build to prove defects are caught, not just measure coverage.
- Mandatory static code-analysis gate on every pull request, enforcing security and quality standards before any merge.
- Microsoft and Azure cloud-native specialization: solutions architected on Azure PaaS for scalability, resilience and security.
- PMI-certified delivery management with documented architecture, test and release artifacts on every engagement.

COMPANY EXPERIENCE

ExxonMobil

Custom enterprise application development and modernization on the Microsoft and Azure stack, with Azure DevOps CI/CD delivery.

Schlumberger (SLB)

N-tier distributed web services and APIs for high-throughput, large-scale energy-sector applications.

CommonSpirit Health

Secure, scalable healthcare applications and systems integration delivered on Azure cloud services.

CONTACT INFO

- The Woodlands, TX 77380

CORE COMPETENCIES

- 1 End to end Solution Architecture and Design
- 2 Development of N-Tier Distributed Web Services, UI/UX, and APIs
- 3 High Throughput and Scalable Microservices Solution Development with Azure Services
- 4 CI/CD Implementation with Azure DevOps
- 5 High quality end to end unit and mutation testing
- 6 High quality code analysis
- 7 Cloud computing experts
- 8 Database Design, Development, and Maintenance
- 9 Thorough application verification and validation services
- 10 Project Management and Documentation Services
- 11 Server Virtualization
- 12 Security and Compliance

AI-ENABLED CAPABILITIES

- Enhance and accelerate coding teams with state-of-the-art, AI-enabled software development
- Build software that leverages Large Language Models (LLMs) and agentic, autonomous AI solutions
- Design and implement AI-driven workflow process automations

COMPANY DATA

- **UEI:** R5PDMC1NN1A5
- **NAICS Codes:** 541511, 541512, 541513, 541519, 519290, 518210, 519210, 513210, 611420
- **PSC Codes:** DA01, DA10, R425
- **CAGE Code:** 9UDG8
- **Geographic Coverage:** Nationwide (remote delivery)
- **Socio-economic certifications:** TX State Certified HUB
- **ACCEPTS CREDIT CARD PAYMENTS**
